## Michigan Department of History, Arts and Libraries Records Management Services

## **Guide to Selecting Records Storage Vendors**

Government agencies often have limited storage space available in their offices for the records that they need to retain. As a result, they may consider hiring a vendor to store records until their retention periods are met. Government agencies need to be careful when selecting a records storage vendor. The following checklist will help you determine if a records storage vendor can meet your agency's needs.

Slora	ge vendor can meet your agency's needs.					Not
